ABOUT ME

Young web enthusiast living in Mumbai. I spend my days with my hands in many different areas of web development from back end programming (ASP.NET, JAVA) to front end engineering (HTML, CSS, jQuery/Javascript and Bootstrap). I'm extremely passionate about web development and design in all its forms.

Aside from Web development also hold expertise in both raster and vector graphic designing. Have made artworks for social media, website, and printing as well. Can designed logo, icons, visiting, envelopes, Invitation, and flyers etc.

Have also received employee recognization for consecutive three years
